	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
rig wel typ wel is ret tim pub	int of water actually placed to beneficial use. It is also understood that the nust allow for a reasonable lowering of the static water level at permittee due to other ground water development in the area. A substantial weir or other of measuring device must be installed and measurements of water use kept. The shall be equipped with a 2-inch opening for measuring depth to water. If we flowing, a valve must be installed and maintained to prevent waste. The States are the right to regulate the use of the water herein granted at any and a less. This permit does not extend the permittee the right of ingress and egress lic, private or corporate lands. The issuance of this permit does not waive the requirements that the permitter obtain other permits from State, Federal and local agencies. The well must be sealed with cement grout, concrete grout or neat cement from level to 100 feet.
·	This permit is totally abrogated by the issuance of permits 48366 and 48367.
 Гhe	amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and to exceed 10.8 cubic feet per second, but not to exceed 2560
